

The INSIGHT team invites you to join us for the:

Nephrotic Syndrome Child and Family Workshop

Saturday May 4, 2024
9:00am – 2:00pm EDT
Hybrid format

(in-person at SickKids Research Institute and virtual)

Aim: To share updates from the INSIGHT study, recent international clinical trials, and discuss which research outcomes are most important to children with nephrotic syndrome and their families.

Workshop plans: You will hear from international leaders in childhood nephrotic syndrome research, pharmaceutical industry representatives about childhood clinical trials and patient safety, be able to share your perspectives, and ask questions to INSIGHT study and SickKids teams.

Dr. Larry Greenbaum

Pediatric Nephrologist in Atlanta, USA. Dr. Greenbaum is a renowned nephrotic syndrome researcher that leads CureGN and other studies.

Dr. Claire Dossier

Pediatric Nephrologist in Paris, France. Dr. Dossier leads clinical trials and is an expert on new antibody-based treatments in nephrotic syndrome.

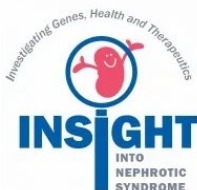

Dr. Cal Robinson

Pediatric Nephrology Fellow and PhD candidate at SickKids. Dr. Robinson is studying clinical trial design and outcomes in nephrotic syndrome.

Dr. Deepa Chand and Dr. Julie Lin

Dr. Chand is a Pediatric Nephrologist and Head of Patient Safety at Novartis. Dr. Lin is a Nephrologist and Project Head at Sanofi Genzyme.
