

You and your child can help improve the care of children with medical concerns at SickKids by participating in this study!

# CALIPER

'ARM' us with the knowledge to help others

## Why is this study important?

CALIPER is a community health project to improve the healthcare of young children at SickKids and other children's hospitals across Canada.

## Who can participate?

We are looking for healthy children under 5 years of age to participate in CALIPER with their family's support. However, any child from birth to 18 can take part.

## What does participation involve?

### FOR YOU:

- Fill out a short questionnaire about your child's health

### FOR YOUR CHILD:

- Height, weight and waist measurements
- Small blood donation (less than one tablespoon)

## How will I benefit?

### Participants will receive:

- CALIPER teddy bear or t-shirt
- \$10 honorarium
